

# DocOrigin

## Release 3.1

### Omnichannel delivery of personalized, highly professional documents anytime and anywhere

Today, almost every company, large or small, turns to Customer Communications Management in order to improve the delivery, storage and retrieval of the business communication with their clients, partners and employees. What most of the companies don't know is that these processes can be digital, cost-effective, easy to use, fast and offer omnichannel document delivery without using multiple software solutions.

#### INTRODUCTION

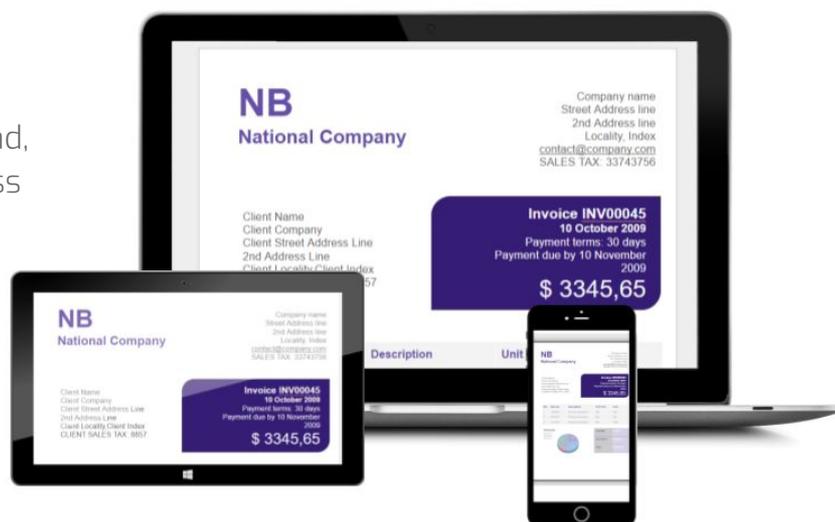

DocOrigin was created by the original team that developed [Jetform/Adobe Central Pro](#). This solution was designed to ensure customers can address the generation of documents that originate from existing legacy, Enterprise Resource Planning (ERP), Customer Relationship Management (CRM) and other line-of-business applications.

Ecodocx LLC | 50 Milk St | Boston, MA 02109 | +1 (617) 475 1636 | [sales@ecodocx.com](mailto:sales@ecodocx.com) |

[www.ecodocx.com](http://www.ecodocx.com)

Many documents originating from legacy applications are often unformatted, hard to read, and monospaced, making a less than perfect impact on customer communications. DocOrigin eliminates the confusion and creates documents that are clean, understandable and professional every time.

## SOLUTION DESCRIPTION

**DocOrigin (from the creators of Adobe Central Pro Output Server, Jetform)** is an innovative and reliable solution for creating, managing, editing and delivering professional business communication in any format across multiple communication channels. With **4000+ installations worldwide**, DocOrigin proves its reliability, flexibility, security and power, delivering needed documents to the needed addresses faster than any other solution with **no outage in the past 5 years at any existing customer**.

## EASY INSTALLATION

Flexible and reliable software for middle till enterprise-size businesses which can be installed with no or minimal changes to existing business systems.

### Any Ecosystem

(e.g. SAP, Oracle JD Edwards EnterpriseOne, Infor M3, Homegrown System)

### Any Platform

(e.g. Windows, Linux, CentOS, IBMi, AS/ 400, AIX)

## LEGACY PRODUCTS REPLACEMENT

DocOrigin is a right fit for customers that are seeking a next-generation replacement for legacy products such as: **Adobe Central, Adobe LC Production Print, Create!Form, DocPath, Bottomline, FormScape, JetForm, Optio, PDF Wizard.**

## OMNICHANNEL DELIVERY

DocOrigin is a flexible and multifunctional tool which helps companies to meet their customers or partners needs in the document delivery channel choice (print, email, fax, sms, web, archive etc.). Having all documents generated with one solution is not only practical and timesaving, but also reduces errors and saves brand integrity.

## ANY DOCUMENTS

This solution allows to design, create, preview and deliver any type of documents and forms (continue ...)

bills, statements, checks, labels, notifications, newsletters etc.). Thanks to the user friendly interface users can create new forms quickly and easily. DocOrigin also helps to save brand integrity and to improve customer satisfaction by eliminating errors, monospaced and hard to read formats.

## STANDARDISED COMMUNICATION

DocOrigin helps to create and use a customized library with document templates. This speeds up the mass document delivery and saves the company's brand integrity by using the same document templates for all delivery channels.

## REDUCE DELIVERY COSTS

Digital document generation and delivery reduces document change and generation, paper, printing, postage and distribution costs.

## SUMMARY

- DocOrigin generates personalized, professional, dynamic, high-fidelity business documents every time
- Is as robust and dependable, as other market leaders, yet faster, easier more flexible and much more efficient
- Can be installed into any ecosystem, platform and can deliver any document type through any delivery channel.
- Builds a perfect solution for middle and enterprise-sized companies who's data is generated by older legacy systems, such as Jetform, Adobe Central Pro, Create!Form, DocPath, Bottomline, FormScape, Optio, PDF Wizard
